There was an error in the original publication [1]. Section 2.5 “Preliminary Evaluation” was removed completely as the section contained information abstracted from an internal Alberta Health Services working document that was not meant to be shared publicly until the formal evaluation of Bridge Healing is completed.

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.

Citation: Robrigado, M.; Zorić, I.; Sleet, D.A.; Francescutti, L.H.
