In the original publication [1], there was a missing word in the caption of Table 5 Comparison our employment estimates (**person FTE**) with the prior studies. The word “million” is missing in the unit presented in the table caption. The corrected Table 5 appears below:

“**Table 5.** Comparison our employment estimates (million-person FTE) with the prior studies.”

The authors apologize for any inconvenience caused and state that the scientific conclusions are unaffected. The original publication has also been updated with reference to this correction.
