Text Correction:

On page 22, the sentence “If supported by an empowering regulatory landscape, VPs may be the institution best poised to effectively safeguard biodiversity and human well-being [49].” should be “Stevens and Krishnamurthy [49] suggested that “if supported by an empowering regulatory landscape, VPs may be the institution best poised to effectively safeguard biodiversity and human well-being”.”

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
