In the original publication [1], there was a mistake in Figure 1a as published. The image of *Trirachys orientalis* Hope was inaccurately used to illustrate *Monochamus alternatus* in Figure 1a. The correct image for *Monochamus alternatus* is now presented in Figure 1a. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.

Figure 1. (a) *Monochamus alternatus* and (b) PWN under an optical microscope.
