Supplemental Figure 1. Mutation frequency of VEEV TC-83 E3 56-59 mutants at coding regions across the genome. VEEV TC-83 E3 56-59 replicates 1, 2, 3 and transcript(A-D), VEEV TC-83 E3 56-59 nsP4-G14R replicates 1, 2, 3 and transcript (E-H), VEEV TC-83 E3 56-59 nsP4-A96T replicates 1, 2, 3 and transcript (I-L), and VEEV TC-83 E3 56-59 nsP4-C488Y replicates 1, 2, 3 and transcript (M-P). Panels have been analyzed using Analysis A. Graphs show a representative of each specific mutant. Blue=nsP1, red=nsP2, green=nsP3, purple=nsP4, orange=capsid, black=E3, gold=E2, navy blue=6k, maroon=E1.
