

## § Fuencovid study group:

**Coding Department:** Maite Cobos

**Radiology:** Daniel Castellón Plaza, Gabriel Nombela Fernández, Blanca Gener Laquidáin, Elena Rodríguez Palacín, Carmen Díaz del Río Martínez, Carlos Alonso Hernández Rodríguez, Ana Vaca Barrios, Tamara Rodríguez Uribe, Rosa Sierra Torres, Marta González-Ruano Iriarte.

**Hospital Pharmacy:** Ana Beatriz Fernández Román, Ana Ontañón Nasarre, Aranzazu Pou, Beatriz Candel García, Belen Hernández, Carolina Mariño, Cristina Bravo Lázaro, Cristina Puivecino Moreno, Eva María García, Jorge Pedreira Bouzas, María del Mar García, María Jesús Esteban Gómez, María José Canalejo, Mario García Gil, Nuria Font, Nuria Herrero Muñoz, Paloma Gabaldón, Yolanda Castellanos Vicente.

**Clinical Laboratory:** Natalia González Pereira, Santiago Prieto Menchero

**Intensive Care Unit:** Angela Alonso Ovies, Joaquín Álvarez Rodríguez, Susana Blanco Pintado, M<sup>a</sup> Ángeles de la Torre Ramos, Raquel del Olmo Monge, Melissa Echeverría León, Almudena Escribá Bárcena, Susana Godoy Boraita, Ana Gutiérrez García, María Lozano Espinosa, Beatriz Nieto Martino, Ana Isabel Rodríguez Villar, Teresa Saldaña Fernández, Carolina Sena Pérez, Eugenia Sevillano Pérez, Enrique Torres Sánchez, Clara Vaquerizo Alonso: Ferney Vasco Castaño, Carlos Velayos Amo, Gema Arellano del Verbo, Gema Díaz Cuero.

**Internal Medicine:** Aida Izquierdo Martínez, Alejandro Morales Ortega, Ana Farfan Sedano, Begoña Frutos Pérez, Carlos Enrique Suárez Acosta, Celia Lara Montes, Cristina De Ancos Aracil, David Bernal Bello, Elena María Sáiz Lou, Guillermo Soria Fernández, Ibón Ayala Larrañaga, Jorge Marrero Francés, Jose Ángel Satué Bartolomé, Jose Manuel Ruiz Giardín, Juan Víctor Sanmartín López, Lorena Carpintero García, Luis Rivas Prado, María Inmaculada Salamanca, María Toledano Macías, Marta Guerrero Santillán, Marta Rivilla Jiménez, Miguel Ángel Duarte Millán, Miguel de Hita Castillo, Nieves Mesa-Plaza, Rafael Cristóbal Bilbao, Raquel Jiménez Ortega, Ruth Calderón, Sara Piedrabuena García, Sonia Gonzalo Pascua, Virginia Garcia Bermúdez, Alicia Moreno Borreguero, Emilia Cáncer Minchot, Irene Gonzalo Montesinoa, María Rosa Villar Vicente, Soralla Civanos Modino, Eva Prats Graciá, María Rabasa Pérez

**Information Systems:** Angel Arias Cosin, Esther Pereira Herrero, Jorge Augusto Moreno, Jorge Tarancón Rey, Luis Antonio Lechuga Suárez, Vicente Aranzana González

**Emergency Department:** Nancy Geraldine Marquina Colacci, Sonsoles Callejas Pérez, Alberto Sánchez Bernal, Mónica Coll Hernández, Madelyn Vianessa Ramírez Reyes, Paloma Pardo Rovira, Elena Tejero Sánchez, Belén Mora Hernández, M<sup>a</sup> Eugenia Barrero Ramos, Miriam Quero Escalada, María Isabel López Rodríguez, Lourdes Muñoz Abril, Gema Delgado Cárdenas, Laura Mariel Matus, Alexandre Maurice Sarradey, María José Durán Gallego, Patricia Sabio Repiso, Marta Álvarez Alonso, Sonia Sánchez Sánchez, Cristina Latorre Marco, Inmaculada Salamanca Ramírez, Kristina Kosanic Martín del Campo, Laura Sánchez Amo, María Jesús Domíguez García.

**Table S1.** Study variables \*.

Variable	Description	Units (International System), If Applicable
<b>Epidemiological Data</b>		
Age	Patient's age at the time of admission	years
Gender	M or F	
Place of birth	Caucasian, Sub-Saharan, North African, Asian, Latin American.	
Nursing home	Patient comes from a nursing home yes or not	
<b>Medical history</b>		
BMI	Measure of body fat that results from dividing the weight by the height	kg/m <sup>2</sup>
HBP	Yes or not	
DM	Diabetes mellitus (any type) yes or not	
Cardiopathy	Ischemic heart disease or heart failure yes or not	
Smoker	Active smoker until admission	
COPD	Yes or not	
Asthma	Yes or not	
Hematological disease	Any malignant haematological disease	
Oncological disease	Any solid oncological disease	
Autoimmune disease	Any	
HIV	Confirmed HIV infection: yes or not	
Dementia	Yes or not	
Charlson	Charlson comorbidity index: predicts 10-year survival in patients with multiple comorbidities.	
Type of vaccine	Type of vaccine received against SARS-CoV-2 infection: BNT162b2 mRNA (Pfizer/BioNTech), mRNA-1273 (Moderna), ChAdOx1 nCoV-19/AZD1222 (AstraZeneca/Oxford), Ad26.COV2.S (Janssen)	
Vaccination	Vaccinated: - BNT162b2 mRNA: two-dose schedule 21 d apart. - mRNA-1273: two-dose schedule 28 d apart. - ChAdOx1 nCoV-19/AZD1222: two-dose schedule 56-84 d apart. - Ad26.COV2.S: single dose. 14 d period after second dose is required to considered patient complete vaccinated. Not vaccinated: patient has not received any vaccine dose or received an incomplete schedule or after receiving the complete schedule started with COVID-19 symptoms before 14 d apart from de last dose	
<b>Radiological findings</b>		
Initial chest radiography	No pneumonia Unilateral pneumonia Bilateral pneumonia	
<b>Clinical evolution</b>		
Severity	Severity of COVID-19 infection classified at discharge Mild: no pneumonia Moderate: pneumonia in the absence of severity criteria Severe: oxygen saturation less than 93%, tachypnea or radiological extension of pneumonia greater than 50%	
Highest oxygen requirements	Highest oxygen support needed during admission in the hospital ward (ICU not included): not oxygen, VM 28%, VM 31%, VM 35%, VM 50%, NRBM 100%	
ICU admission	Yes/No	
Death in hospital	Yes/No	

Hospital stay	From hospital admission to discharge	days
ICU stay	From ICU admission to discharge	days
Death at one month	Wether the patient is death one month after the discharge or not	
<b>Laboratory test</b>		
Highest CRP	Highest CRP value during admission	mg/dL
Highest IL-6	Highest IL-6 value during admission	pg/mL
Highest IL-6 pre-treatment with tocilizumab	Highest IL-6 pre-treatment with tocilizumab during admission	pg/mL
Lowest lymphocyte value	Lowest lymphocyte value during admission	lymphocytes/mcL
Highest DD	Highest DD value during admission	ng/mL
Highest LDH	Highest LDH value during admission	ng/mL
Highest ferritin	Highest ferritin value during admission	ng/mL
<b>Treatments</b>		
Remdesivir	Wether the patient received it or not	
Tocilizumab	Wether the patient received it or not	
Imatinib	Wether the patient received it or not	
Baricitinib	Wether the patient received it or not	
Anakinra	Wether the patient received it or not	
Low-molecular-weight heparin	Wether the patient received it or not	
Corticosteroids	Wether the patient received it or not	

\*BMI: body mass index; HBP: high blood pressure; DM: diabetes mellitus; COPD: chronic obstructive pulmonary disease; HIV: human immunodeficiency virus; SARS-CoV-2: severe acute respiratory syndrome coronavirus 2; ICU: intensive care unit; VM: venturi mask; NRBM: non-rebreather mask; CRP: C-reactive protein; IL-6: interleukin-6; DD: D-dimer; LDH: lactate dehydrogenase.

**Table S2.** Type of vaccine in the fully vaccinated cohort\*.

Vaccine	Vaccinated
BNT162b2 mRNA (Pfizer/BioNTech)	61 (79.2)
mRNA-1273 (Moderna)	3 (3.9)
ChAdOx1 nCoV-19/AZD1222 (AstraZeneca/Oxford)	7 (9.1)
Ad26.COV2.S (Janssen)	6 (7.8)
Total	77/77 (100.0)

\*Values are no. (%).
