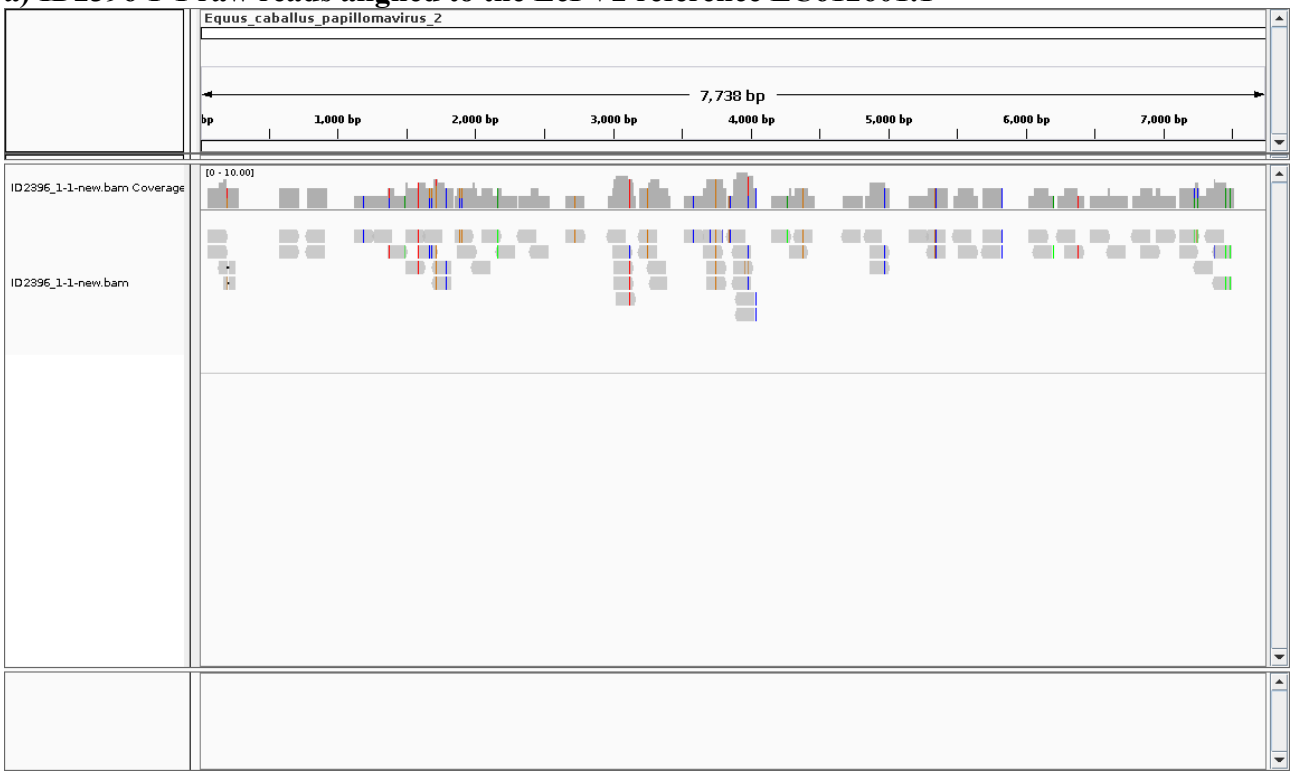

Figure S3 : Raw reads aligned to either the reference EcPV2 genome or on the reconstructed sequences and visualized through the Integrative Genome Viewer (IGV)

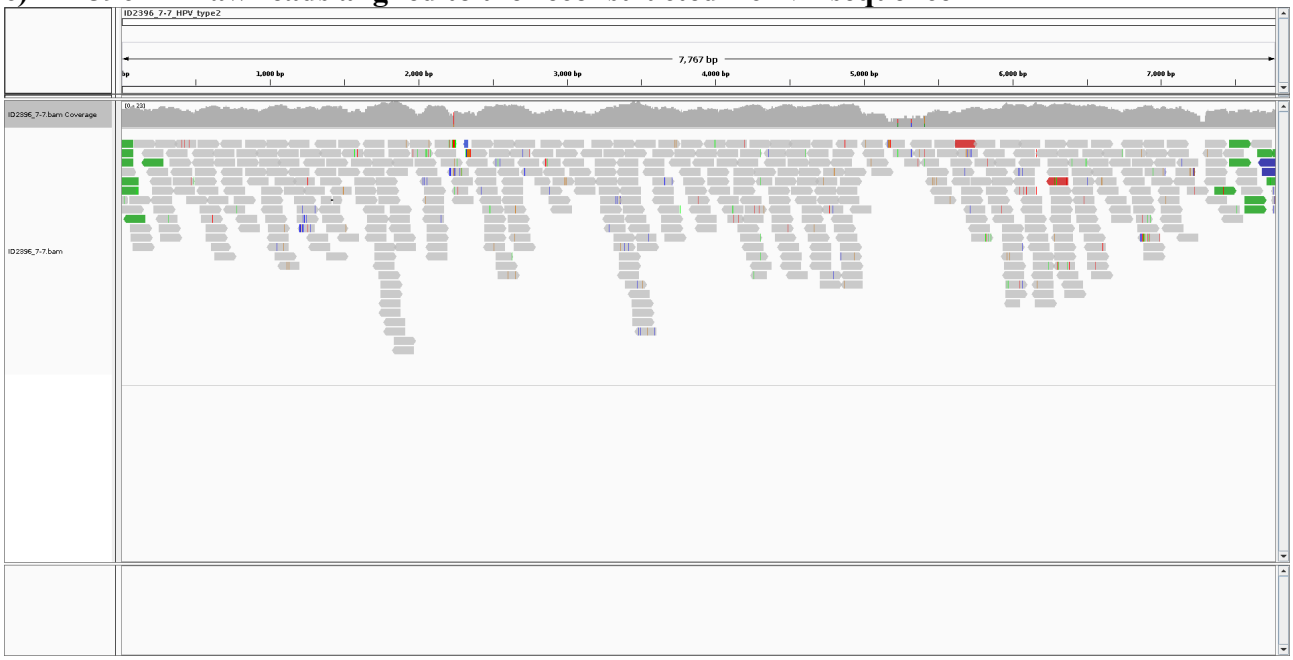

a) ID2396 1-1 raw reads aligned to the EcPV2 reference LC612601.1

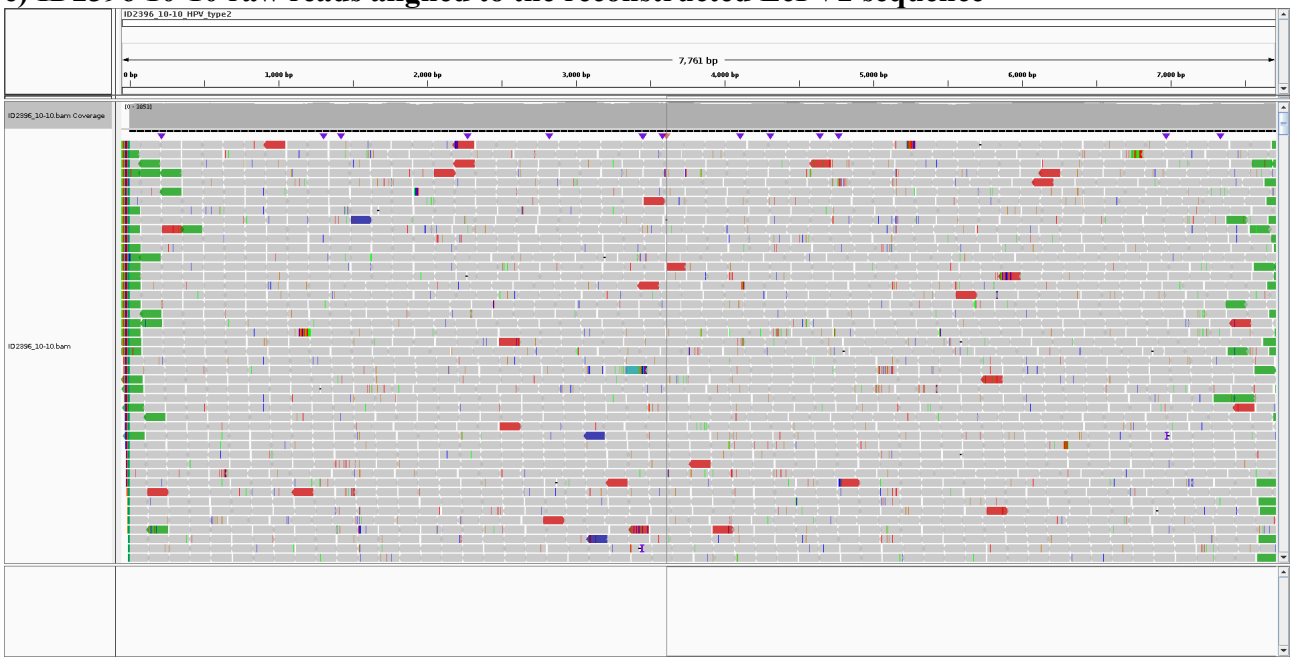

b) ID2396 4-4 raw reads aligned to the consensus reconstructed sequence

c) ID2396 7-7 raw reads aligned to the reconstructed EcPV2 sequence

e) ID2396 10-10 raw reads aligned to the reconstructed EcPV2 sequence

d) ID2396 12-12 raw reads aligned to the reconstructed EcPV2 sequence
