

Supplementary Figure:

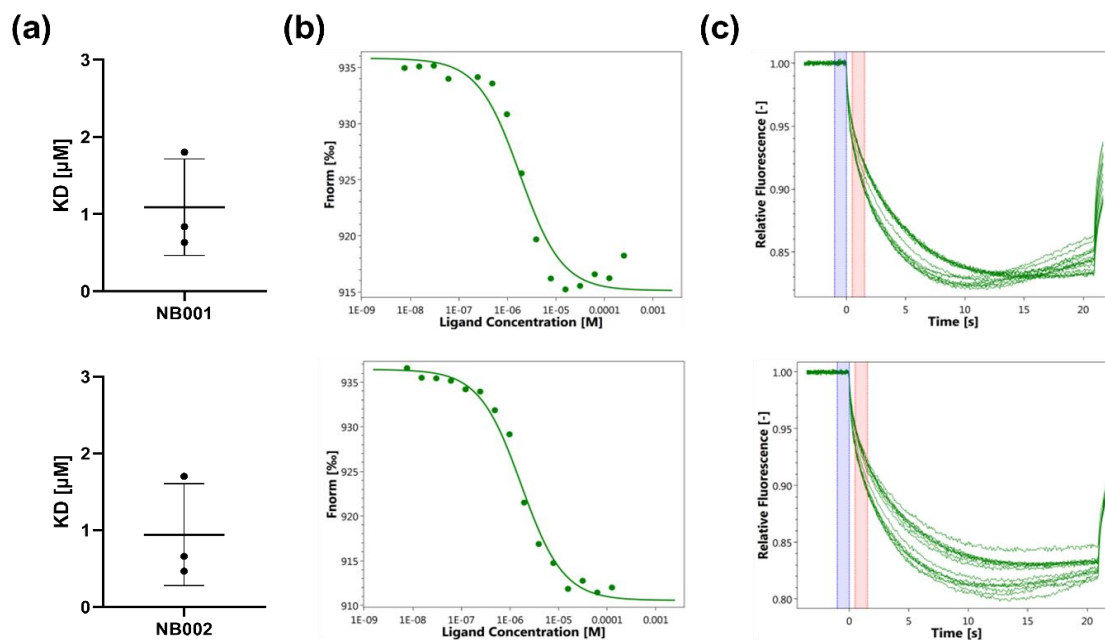

Figure S1. Binding of SARS-CoV-2-S1-RBD to the peptides NB001 and NB002. (a) The K_D for the binding of NB001 to RBD is 1.08 μM , and that for NB002 is 0.94 μM . The following serial dilutions were used for the peptides: NB001R, 1mM-30nM; NB001 and NB002, 250 μM -7.6nM. (b) Representative dose response curves (c) MST traces. The red bar indicates the selected time point for the dose response used to determine the K_D .
