Error in Funding

In the original publication [1], the funding from the Federal District Research Support Foundation (FAPDF), DPI/BCE 01/2025, and the Bench Amendment, No. 7108001, was not included. The correct funding information should be as follows:

“This study received financial support from the Federal District Research Support Foundation (FAPDF), DPI/BCE 01/2025, and through Bench Amendment No. 7108001.”

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
