RECYCLING IN ENCLOSED RESIDENTIAL DEVELOPMENTS

Questionnaire number

--	--	--	--	--	--	--	--

(To be completed by fieldworker)

INFORMED CONSENT AND INSTRUCTIONS

This study is about your views on recycling in enclosed residential developments. Recycling is defined here as the separation of any recyclable material (i.e., paper, glass, metal and plastic) from household waste by the household itself for collection by or drop-off at any scheme other than the municipal system.

This questionnaire, including all questions in it, is voluntary and all your responses will be anonymous. Data will be analysed on an aggregate level and will not be singled out for any particular household. The findings may be submitted to an academic journal for publication. By completing and returning this questionnaire, you understand that (1) the questionnaire is voluntary, (2) your responses will be anonymous, and (3) the findings may be used for publication.

Please nominate an adult member of the household of 19 years or older that would be most suitable to answer this questionnaire. The examples on the right will assist you in completing the questionnaire accurately.
