The authors would like to make the following corrections about the published paper [1]. The changes are as follows:

(1) Replacing the Conflicts of Interest:

**Conflicts of Interest:** The authors declare no conflict of interest. with

**Conflict of Interest:** The Ministry for Primary Industries (MPI) is the regulator for New Zealand's entire primary sector. As regulator, we are responsive to the needs of all food-producing industries and have a wide range of other responsibilities. In a practical sense, our role includes protecting New Zealand from biological risk, increasing food production, minimising environmental impacts, and ensuring the food we produce in New Zealand is safe for consumers. The primary sector is wide-ranging and includes our arable and horticulture industries, as well as our red meat, dairy, fisheries and aquaculture industries.

The authors apologize for any inconvenience caused and state that the scientific conclusions are unaffected. The original publication has also been updated.
