The authors would like to make the following corrections to the published paper [1]. The changes are as follows:

Replacing “85%” with “25%”

On page 4, “85” was replaced with “25%” in the following sentence: “Statistics collected from the Swedish NAE [37] show that, of the total number of 517,405 children aged 1–5 enrolled in the municipal and private preschools in 2020, 85% were either born in a country other than Sweden, or were born in Sweden, but had parents that were born outside Sweden”.

The authors and the Editorial Office would like to apologize for any inconvenience caused to the readers and state that the scientific conclusions are unaffected. The original article has been updated.
