The journal retracts the article titled “Developing and Enhancing the Competitiveness of the Palestinian National Product: The Leather and Footwear Sector—Analysis and Evaluation of Government Interventions” [1].

Following publication, concerns were brought to the attention of the Editorial Office regarding an overlap between this publication [1] and a previously published article [2] produced by a different authorship group in different language.

Adhering to our complaints procedure, the Editorial Office and Editorial Board conducted an investigation that confirmed a significant overlap between these two articles [1,2] without appropriate acknowledgment or citation. As a result, the Editorial Board has decided to retract this paper as per MDPI’s retraction policy (https://www.mdpi.com/ethics#_bookmark30).

This retraction was approved by the Editor-in-Chief of *Sustainability*.

The authors did not agree to this retraction.
