The authors would like to make the following corrections to the published paper [1]. The changes are as follows:

We would like to replace a sentence in “Section 1. Introduction” on paragraph 3, namely,

“In the UK, the average age for toilet training completion has increased from 28.5 months in the 1950s [17] to 36.8 months in the 2000s [13].”

with

“In the US, the average age for toilet training completion has increased from 28.5 months in the 1950s [17] to 36.8 months in the 2000s [18].”

Reference [36] should be moved to Reference [18]. With this correction, the order of some references has been adjusted accordingly.

The authors and the Editorial Office would like to apologize for any inconvenience caused for the readers and state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original article has been updated.
