

Supplementary Materials: Predicting Water Stress in Wild Blueberry Fields Using Airborne Visible and Near Infrared Imaging Spectroscopy

Catherine Chan, Peter R. Nelson, Daniel J. Hayes, Yong-Jiang Zhang and Bruce

Irrigated/non-irrigated models

Figure S1. Plot of the 35 most important predictor variables in the local models and corresponding importance levels.

Local water potential models

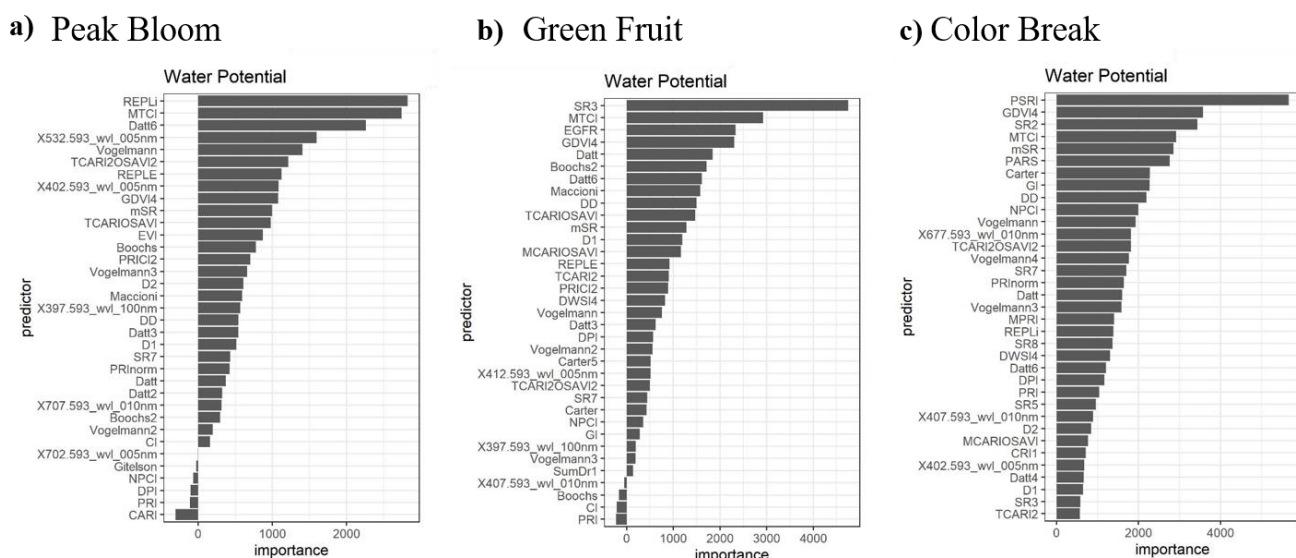

Figure S2. Plot of the 35 most important predictor variables in the local water potential models and corresponding importance levels.
