

Figure S1. Crop calendars of 2018 for major crops in Germany based on DWD (Deutscher Wetterdienst) phenology observation data (DWD-CDC (2001); own outlier analysis and visualization).

Table S1: Model and map accuracy metrics (precision, recall, and F1-score) for crop type classifications for the Germany-wide RF models using different input feature sets. namely all Sentinel-1 and -2 features (S12), only the Sentinel-1 features (S1) and only the Sentinel-2 features (S2).

Crop	Class	S12						S1						S2					
		model			map			model			map			model			map		
		Prec	Rec	F1	Prec	Rec	F1	Prec	Rec	F1	Prec	Rec	F1	Prec	Rec	F1	Prec	Rec	F1
