

Supplementary Materials:

Figure S1. Placental protein expression of FATP1 and FATP4. (A) Placental protein expression of FATP1 and FATP4 in adults ($n = 7$) and adolescents ($n = 6$). Placental densitometric analysis of (B) FATP1 and (C) FATP4 after normalization by actin. Results are expressed as mean \pm SD. $p < 0.05$ was considered significantly different according to unpaired t test.
