In the original publication of this article [1], the authors stated that the review was registered in the PROSPERO database. Following publication, it was brought to our attention that the registration was not completed prior to commencement.

Therefore, the authors wish to remove the following text from the "Methods" section: "This meta-analysis was registered on PROSPERO, an international platform of registered systematic review and meta-analysis protocols (Prospero ID number: 1044077)."

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
