

Supplementary Materials: Two Novel Dermaseptin-Like Antimicrobial Peptides with Anticancer Activities from the Skin Secretion of *Pachymedusa dactylorhiza*

Danling Shi, Xiaojuan Hou, Lei Wang, Yitian Gao, Di Wu, Xinping Xi, Mei Zhou, Hang Fai Kwok, Jinao Duan, Tianbao Chen and Chris Shaw

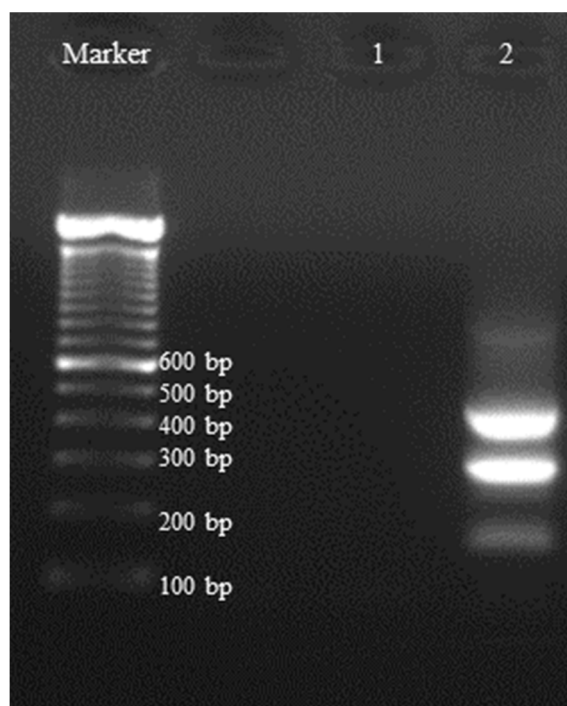

Figure S1. Gel electrophoresis of RACE PCR products from *Pachymedusa dactylorhiza* skin secretion cDNAs library. The negative control (1) was performed using PCR grade water instead of the cDNA template which was used in the sample (2).
