In the original publication [1], there was a mistake in Figure 4. Upon careful re-examination, we found that a portion of the data was duplicated. Specifically, the data of the red and black curves in Figure 4 were repeated. We have thoroughly reviewed the original raw data and confirmed that this duplication was caused by an inadvertent copy-paste mistake during the figure assembly process. The correct Figure 4 appears below. The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.

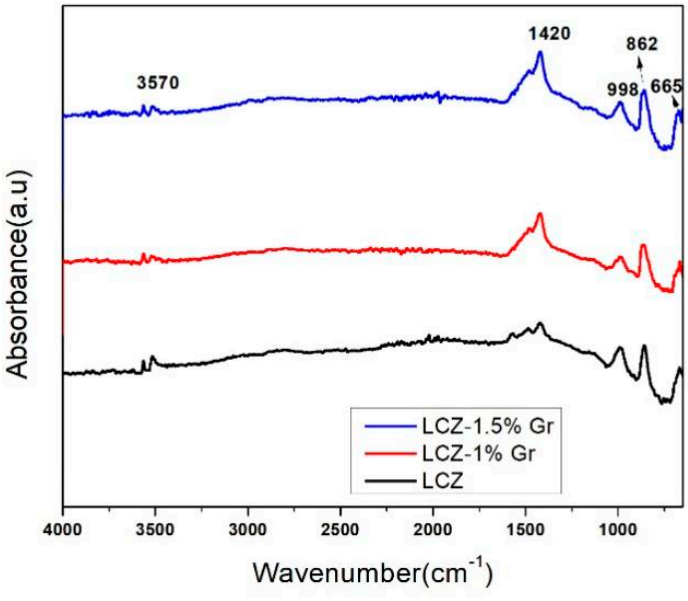

Figure 4. FTIR spectrum of prepared materials.
