b

Supplement Figure 2. Identification of *Giardia* by nested PCR in faecal and intestinal samples. a) Faeces collected 13 dpi and b) intestines collected day 8 dpi from the *Giardia*-infected mice. +/+ = mMCP-4$^{+/+}$, +/- = mMCP-4$^{+/-}$, -/- = mMCP-4$^{-/-}$ GP = Giardia Postitive, GN = Giardia Negative, M = DNA Ladder
