We have found one error in Equation (2) (duplicate with Equation (1)) in our paper published in the *Water* Journal [1]:

$$m_i \frac{d\vec{u}_i}{dt} = m_i \vec{g} + \sum_k \vec{f}_{i,k} + \vec{f}_{i,f} \quad (1)$$

Equation (2) is corrected to:

$$I \frac{d\vec{\omega}_i}{dt} = \frac{d_i}{2} \sum_k (\vec{n}_{i,k} \times \vec{f}_{i,k}) \quad (2)$$

These changes have no material impact on the conclusions of our paper. We apologize to our readers.

Conflicts of Interest: The authors declare no conflict of interest.
