1. Missing Funding

In the original article [1], the funders **Lawn Institute and National Science Foundation's Engineering Research Center for Re-inventing the Nation's Urban Water Infrastructure, ReNUWIt, Project # 128027 (ID 26975) and NSF EEC-1028968** to **Ahmed Kanaan and Elena Sevostianova, respectively** were not included. The authors apologize for any inconvenience caused, and state that the scientific conclusions are unaffected. The original article has been updated.

2. Incorrect Acknowledgements

There is an error in the Acknowledgement. The correct names of the supporting Institutions are **New Mexico State University's Facilities and Services and New Mexico State University's Agricultural Experiment Station**. The authors apologize for any inconvenience caused, and state that the scientific conclusions are unaffected. The original article has been updated.

3. Updated Acknowledgement

Acknowledgments: Support for this study was provided by New Mexico State University's Facilities and Services and by New Mexico State University's Agricultural Experiment Station. The authors are further grateful for the donations from Helena Chemical Company. Review and technical input were provided by Sandia National Laboratories, in particular Walter Gill, who is well versed in radiation heat transfer.

4. Addition of an Author

Bernd Leinauer and Matteo Serena were not included as authors in the published article. The corrected Author Contributions Statement appears here. The authors apologize for any inconvenience caused, and state that the scientific conclusions are unaffected. The original article has been updated.

B.L.: Conceptualization, funding, supervision; M.S.: data collection, infrastructure, research site.
