Affiliation Correction

In the original publication [1], there was an error regarding the affiliation. The updated affiliation should be: “School of Environment, Enterprise and Development, University of Waterloo, Waterloo, ON N2L 3G1, Canada”.

Text Correction

There was an error in the original publication. In the list provided under “1.2.2. Household Food Insecurity Access Scale”, the first question was missing from the scale in the original manuscript. A correction has been made to “1.2.2. Household Food Insecurity Access Scale”, Paragraph 3:

1. In the past four weeks, did you worry that your household would not have enough food?
2. In the past four weeks, were you or any household member not able to eat the kinds of foods you preferred because of a lack of resources?
3. In the past four weeks, did you or any household member have to eat a limited variety of foods due to a lack of resources?
4. In the past four weeks, did you or any household member have to eat some foods that you really did not want to eat because of a lack of resources to obtain other types of food?
5. In the past four weeks, did you or any household member have to eat a smaller meal than you felt you needed because there was not enough food?
6. In the past four weeks, did you or any household member have to eat fewer meals in a day because there was not enough food?
7. In the past four weeks, was there ever no food to eat of any kind in your household because of lack of resources to get food?
8. In the past four weeks, did you or any household member go to sleep at night hungry because there was not enough food?
9. In the past four weeks, did you or any household member go a whole day and night without eating anything because there was not enough food? [70] (p. 5).

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
