

Supplementary Materials: Enhancement of Biofilm Formation on Pyrite by *Sulfobacillus thermosulfidooxidans*

Qian Li, Wolfgang Sand and Ruiyong Zhang

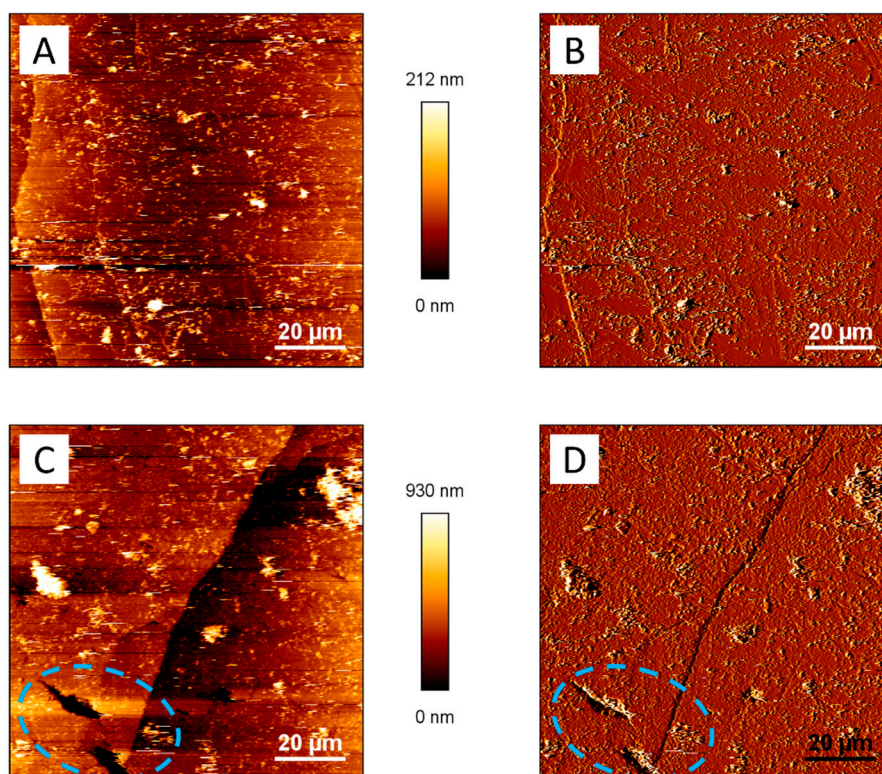

Figure S1. AFM images of pyrite surface. (A,B) are the height and vertical deflection images of clean pyrite surface, respectively; (C,D) are the representative height and vertical deflection images of pyrite surface after abiotic leaching for 10 months, respectively. Circles in (C,D) indicate etch pitches.
