

Table S1. Software selected for further evaluation in our study.

Software	Overview	Benefits	Challenges	Price Per Year*
Tinkercad	3D CAD design tool	Can import .stl ser-friendly interface	Basic modeling only	free
AutoCAD	3D CAD design tool	Can import .stl files	Unable to handle large .stl files	\$1610 / 2227€
Recap PRO	3D models from scans	Can import .stl files	Meant for converting files into workable form	\$350 / 355€
Fusion360	Advanced 3D design and model	Advanced modeling, .stl import	Requires familiarization	\$495 / 503€
Rhinoceros	Advanced 3D design and model	Advanced modeling, .stl import	Requires familiarization	\$995 / 995€
ImageJ	Meant for editing histopathological slides	Handles large microscopy images	Unable to import stl file	free

* pricing according to 2020.
