

Table S1. Treatment regarding HER2 status/

| Surgery<br>+ postoperative adjuvant therapy |    |
|---|----|
| HER2 status                                 |    |
| HER2-neg                                    | 9  |
| HER2-low                                    | 7  |
| HER2-pos                                    | 1  |
| HER2 protein status                         |    |
| No HER2 expression                          | 9  |
| HER2 expression                             | 8  |
| HER2 gene status                            |    |
| No HER2 amplification                       | 11 |
| HER2 amplification                          | 6  |
