

#Result of GMYC species delimitation

method: single
likelihood of null model: 724.6707
maximum likelihood of GMYC model: 877.8727
likelihood ratio: 306.4039
result of LR test: 0***

number of ML clusters: 13
confidence interval: 13-13

number of ML entities: 33
confidence interval: 33-33

threshold time: -1e-06
