

Western blot analysis of BmHemolin protein in knockout individuals (*KO-BmHemolin*) and WT individuals. X lane: the lane not used in the article.

Western blot analysis of α-tubulin protein in knockout individuals (*KO-BmHemolin*) and WT individuals. X lane: the lane not used in the article.

Sample	BmHemolin(mean)	α-tubulin(mean)	Ratio (BmHemolin/α-tubulin)
KO	0.812	22.192	0.03659
WT	28.469	28.739	0.990605

Quantitative Immunoblot Analysis of BmHemolin and α-tubulin in knockout individuals (*KO-BmHemolin*) and WT individuals. BmHemolin(mean): densitometric measurement of BmHemolin protein band intensity. α-tubulin(mean): densitometric measurement of α-tubulin protein band intensity.
