<sup>1</sup>PC = Positive control with medicinal zinc oxide; NC = Negative control without medicinal zinc oxide, SP = Soy protein concentrateSoybean meal, XLA = X-low protein + amino acids.

<sup>2</sup>FEsv = Danish Feed Units, which are potentially physiological energy closely related to net energy.

<sup>3</sup>Standardized ileal digestible = SID: The content of SID CP and amino acids were calculated based on analysed total values of the six dietary treatments and on SID digestibility coefficients of the feed ingredients from Danish Agro (Sjölund, Denmark).
