

**Supplementary file S1. Multivitamin and mineral complex composition.**

**Water-soluble complementary feed in oral solution\***

Composition	Per litre
Dextrose	0.50%
Sodium chloride	0.50%

Additives	Grams
<i>Trace elements or compounds of trace elements</i>	
Zinc (E6) (glycine chelate hydrate)	15g
Copper (E4) (glycine chelate hydrate)	2.5g
Manganese (E5) (glycine chelate-hydrate)	10g

\*0.5 litres of product for every 1.000 liters of drinking water, for 3 weeks, or 1 litre of product for every 1.000 litres of drinking water, for 1 week.

**Water-soluble complementary feed in oral solution. Growth stimulant and hepatoprotector\*\***

Composition	Per liter
Magnesium sulfate heptahydrate	4%
Propylene glycol	2.70%

Additives per liter	Grams
Sorbitol (E420)	140
Choline Chloride (3a890)	125
D-Panthenol (3a842)	10
Sodium ascorbate (1b301)	6.8
Niacinamide (Vit. B3) (3a315)	5
Pyridoxine hydrochloride (Vit. B6) (3a831)	5
Potassium sorbate (E 202).	2.7
Artichoke extract	6
Vitamin E (3a700)	2
Thiamine hydrochloride (Vit. B1) (3a820)	2
Riboflavin phosphate sodium (Vit. B2)	1.4
Cyanocobalamin (Vit. B12)	3 (mg)

\*\*2-3 L for every 1.000 L of drinking water for 7-10 days.
