The authors and journal retract the article, “Reconstructing the Dynamic Processes of the Taimali Landslide in Taiwan Using the Waveform Inversion Method” [1], cited above.

Following its publication, the authors contacted the editorial office regarding improper use of materials, without authorization.

Adhering to our complaints procedure, an investigation was conducted and the university was consulted. The decision was made that the article should be retracted.

This retraction was approved by the Editor-in-Chief of the journal. The authors agreed to this retraction.
