

Suppl. Figure S1. Effect on glutamate concentration in hippocampus of rats following exposure (GD6-PD59) to As, Pb, Mn and their mixture on PD60. Values are the mean \pm SEM of five animals in each group of both tests. Data have been analyzed by one-way analysis of variance followed by Newman-Keuls test. Significantly different * $p < 0.05$, as compared to controls.

Suppl. Figure S2. Effect on expression pERK1/2 in hippocampus of rats following exposure (GD6-PD59) to As, Pb, Mn and their mixture on PD60. Values are the mean \pm SEM of three animals in each group of both tests. Data have been analyzed by one-way analysis of variance followed by Newman-Keuls test. Significantly different * $p < 0.05$, as compared to controls.
