Note: Estimates are Odds Ratios (OR), and beta's, and 95% Confidence Interval in parentheses (95% CI), derived from a Binary logistic regression analysis (model 1) and a linear regression analysis (model 2). CPC: Cerebral Performance Score, ICU: Intensive Care Unit, PCI: Percutaneous Coronary Intervention, CABG: Coronary Artery Bypass Graft, AED: Automated External Defibrillator, EMS: Emergency Medical Service. Bold values are significant at 5% alpha level.
