Supplementary Material

Table S1. Patients' distribution between standard and modified ventral rectopexy in open and minimally invasive surgery.

	Open surgery [since 2010] n°(%)	**Minimally invasive surgery [since 2018] n°(%)**
Patients	97	20
Standard ventral rectopexy	42 (43.3)	10 (50.0)
Modified ventral rectopexy	55 (56.7)	10 (50.0)
Conversion from modified to standard ventral rectopexy	4 (4.1)	2 (10.0)
