

The tree structure of NC model:

$x[0]$ = CT_original_glcm_ClusterShade

$x[1]$ = CT_original_glcm_ClusterTendency

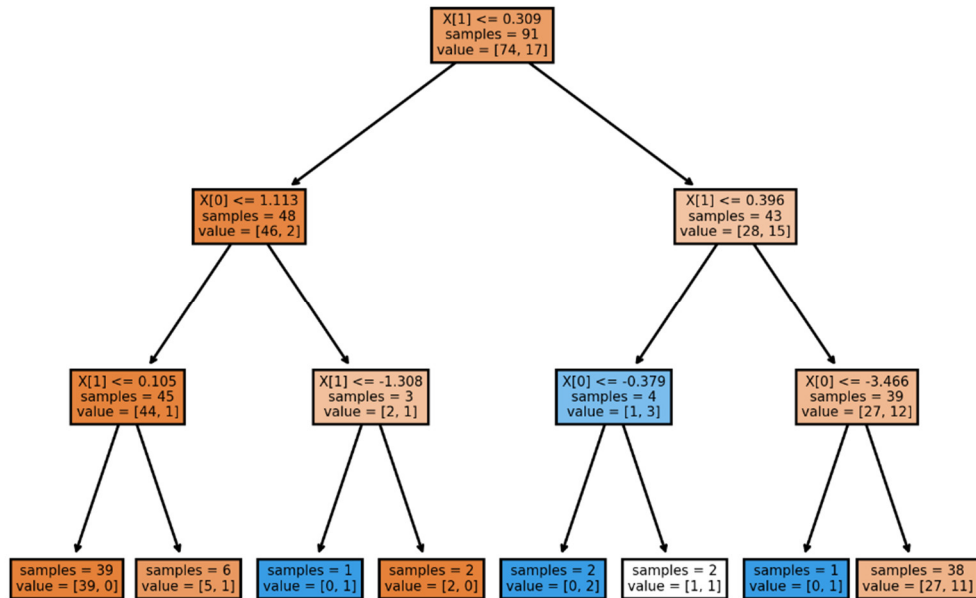

Figure S1. The tree structure of NC model.

The tree structure of AP model:

$x[0]$ = CT_original_firstorder_90Percentile

$x[3]$ = CT_original_gldm_ClusterShade

$x[4]$ = CT_original_gldm_SmallDependenceLowGrayLevelEmphasis

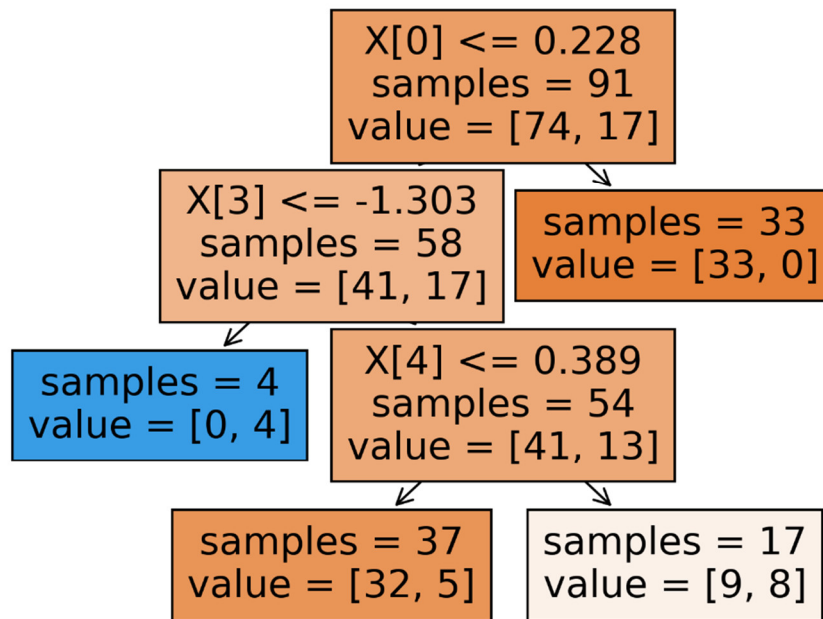

Figure S2. The tree structure of AP model.

The tree structure of NC+AP model:

x[0]= NCCT_original_glcml_ClusterShade

x[1]= NCCT_original_glcml_ClusterTendency

x[2]= APCT_original_firstorder_90Percentile

x[3]= APCT_original_firstorder_Maximum

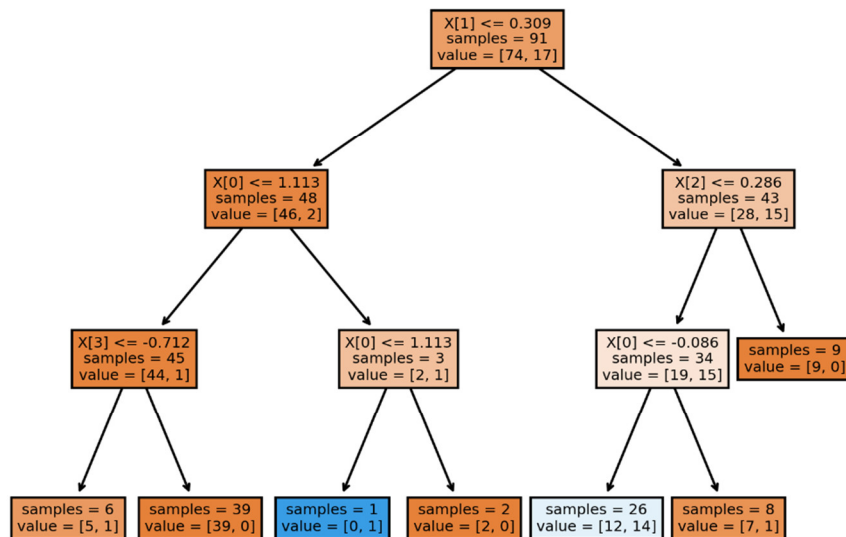

Figure S3. The tree structure of NC + AP model.

The tree structure of delta model:

x[0]= CT_original_firstorder_90Percentile

x[2]= CT_original_firstorder_Maximum

x[3]= CT_original_firstorder_Range

x[4]= CT_original_firstorder_Uniformity

x[5]= CT_original_glszm_ZoneEntropy

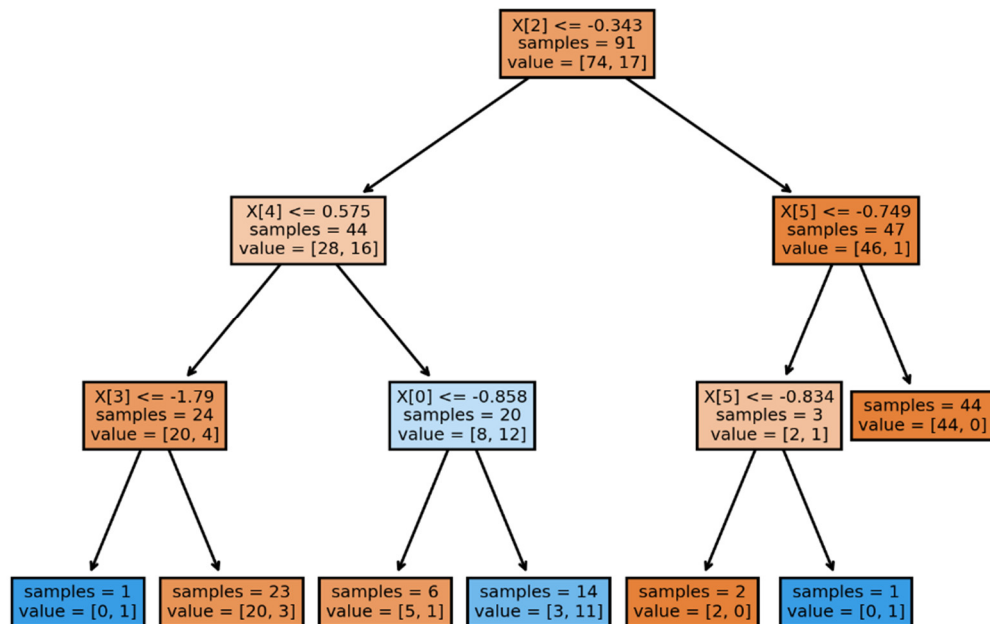

Figure S4. The tree structure of delta model.
