

**Figure S1.** Percentage of the sum of squares (SS) explained by the factors included in the ANOVA model for agronomic and quality traits.

**Table S1.** Mean data (+ standard error) of agronomic performance, vegetation indexes and protein quality of two chickpea genotypes (G1, Pascia; G2, Sultano) grown under rainfed (-I) and with supplementary irrigation (+I) and two N rates (-N, +N) at Troia (S1) and Pignola (S2).
