

**It is suggested to design 1 table with the results of the analysis of variance, and 1 table with the least-square adjusted means and their comparison.**

Table S1. Effect of the temperature of the carcasses on the microbiological count MES.

Type III Tests of Fixed Effects				
Effect	Num DF	Den DF	F Value	Pr > F
TEMP	2	24	3.70	0.0397
TRAT	1	24	4.70	0.0404
TEMP*TRAT	2	24	5.55	0.0104

Table S2. Effect of the temperature of the carcasses on the microbiological count EC.

Type III Tests of Fixed Effects				
Effect	Num DF	Den DF	F Value	Pr > F
TEMP	2	24	0.86	0.4361
TRAT	1	24	5.07	0.0337
TEMP*TRAT	2	24	0.35	0.7102

Table S3. Effect of the temperature of the carcasses on the microbiological count CPS.

Type III Tests of Fixed Effects				
Effect	Num DF	Den DF	F Value	Pr > F
TEMP	2	24	0.97	0.3918
TRAT	1	24	2.69	0.1139
TEMP*TRAT	2	24	0.17	0.8465
