Name:

Short answer text

Age Category:

- ☐ < 18 years old
- ☐ 18-24 years old

- ☐ 36-45 years old
- ☐ 46-55 years old
- ☐ 56-65 years old
- ☐ 66-75 years old
- ☐ > 75 years old

Gender:

- ☐ Female
- ☐ Male
- ☐ Prefer not to say
- ☐ Other...

Occupation (optional):

Short answer text

.....

Resident/Non-resident:

- ☐ St. Paul Resident
- ☐ St. Paul Non-Resident
- ☐ St. George Resident
- ☐ St. George Non-Resident

Tribal member/Non-tribal member (Optional)

- ☐ ACSPI Tribal Member
- ☐ Non-Tribal Member
- ☐ St. George Tribal Member
- ☐ Prefer Not to Say

Section 2 of 4

PART 2

The Ecosystem Conservation Office of the Aleut Community of St. Paul Island and Ocean Conservancy are hoping to understand community perceptions of how the decline of northern fur seals on the island is impacting our community.

Why do you think northern fur seals declining?

Long answer text

How has the decline of northern fur seals impacted you personally?

Long answer text

community.]

	1	2	3	4	5	
No impact	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Significant impact

Based on your answer above, please explain how the decline of northern fur seals has impacted our community?

Long answer text

Are there any topics for which would you like to see more research on northern fur seals?

Check All That Apply

- | | |
|---------------------------|-----------------------|
| Diet and foraging | <input type="radio"/> |
| Range/distribution | <input type="radio"/> |
| Contaminants | <input type="radio"/> |
| Vessel disturbance | <input type="radio"/> |
| Competition for prey/food | <input type="radio"/> |
| Entanglement | <input type="radio"/> |
| Don't need more research | <input type="radio"/> |
| Other | <input type="radio"/> |

Please expand on or explain your answer(s) here:

Section 3 of 4

PART 3

Community members in 2019 highlighted the importance of marine waters 0-100 nautical miles around the Pribilof Islands. The Ecosystem Conservation Office of the Aleut Community of St. Paul Island and Ocean Conservancy are interested in learning more about why this area was identified by community members as important.

Please rate on a scale of 1-5, is this area (0-100 nautical miles) important to northern fur seals?
[1=Not Important at all, 2=Less important than other areas 3=No different than other areas, 4=More Important than other areas, 5=Critically important to fur seals.]

	1	2	3	4	5	
Not Important at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Critically Important

Why did you score the question above as important or not?

Long answer text

What do you think northern fur seals primarily eat and why?

Long answer text

Long answer text

Do you think that fur seals from different islands or rookeries hunt or forage in different areas?
Why or why not?

Section 4 of 4

PART 4

The Ecosystem Conservation Office of the Aleut Community of St. Paul Island and Ocean Conservancy seek to understand more about community perceptions of non-local fishing vessel activity and presence around the Pribilof Islands. The following questions relate to the activity and presence of fishing vessels around the Pribilof Islands.

How does having fishing vessels or large-scale fishing activity around the islands impact our community?

Long answer text

Do you think fishing vessels impact fur seals?

☐ Yes

☐ No

If YES, how?
