The journal retracts the article "Cathode Interlayer Engineering for Efficient Organic Solar Cells under Solar Illumination and Light-Emitting Diode Lamp. *Coatings* **2022**, *12*, 816" [1].

The Journal was alerted to issues related to the misappropriation of the identity of the author of this manuscript.

Adhering to our complaints procedure, an investigation was conducted that confirmed that this article was not written by Dr. Benesperi, but by someone impersonating them.

The Editorial Office (and Editor-in-Chief) take incidents of this kind very seriously and have a zero-tolerance policy towards such actions.

The article is therefore retracted.

This retraction was approved by the Editor-in-Chief of the journal, Dr. Alessandro Lavacchi.
