Figure S2

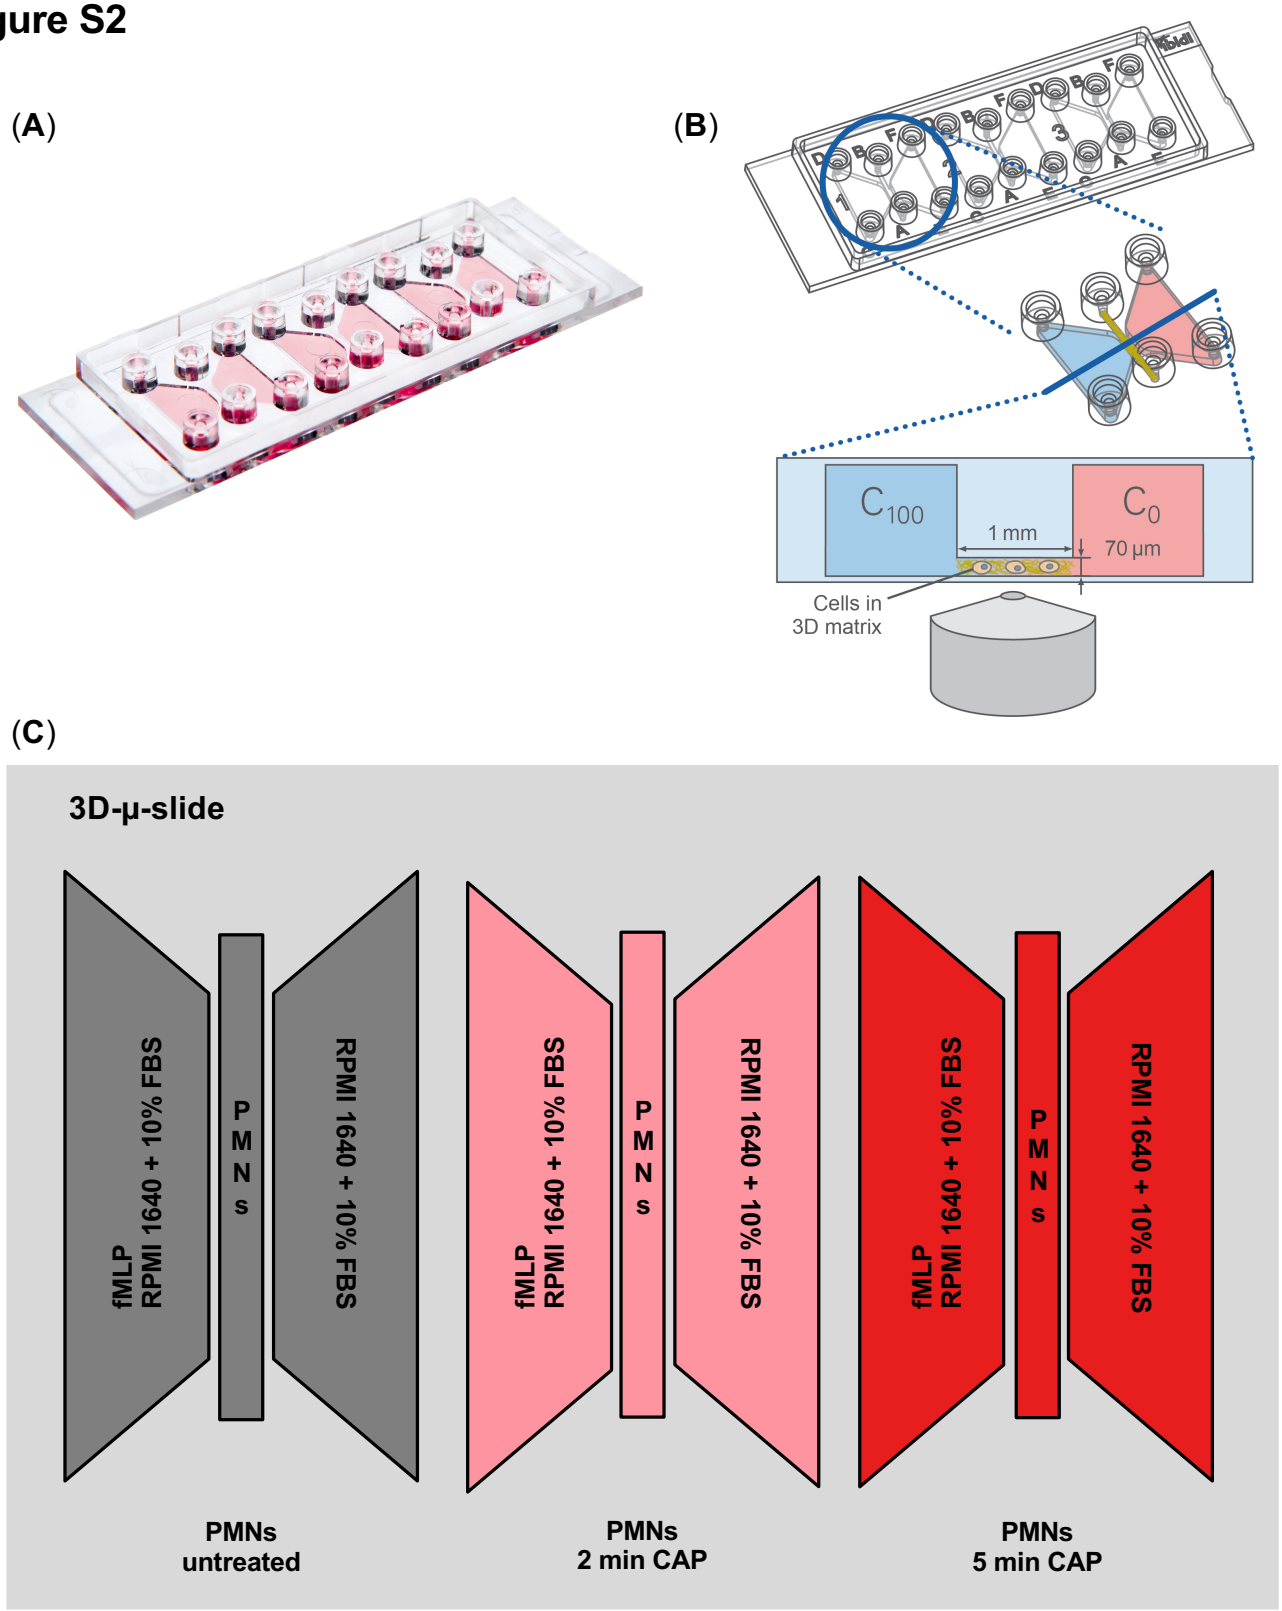

Figure S2. Structure of the ibidi© 3D-µ-slide. (**A**) Picture of the ibidi© 3D-µ-slide used for a chemotactic assay (Image courtesy of ibidi GmbH). (**B**) Schematic of the µ-slide chemotaxis principle; in this example, a 3D experiment with migratory cells in a gel matrix is shown (Image courtesy of ibidi GmbH). (**C**) Exemplary schematic of how the slide was prepared in this study.
