

SUBJECT: Research project evaluation

Dr. Ricardo Gómez Flores:

By this means, you are informed that in a session held on April 26, 2022, the research project with registration number CI-04-26-2022 “Antitumor activity of methanolic extracts of Mexican plants on tumor cell lines” was reviewed and approved.

The global scientific evaluation of this research project complies with technical-scientific quality, scientific relevance and impact, as well as with the criteria, guidelines and institutional requirements.

Sincerely yours,

Atentamente

“*ALERE FLAMMAM VERITATIS*”
