

Figure S1 : Relative expression levels of 27 *CaTCPs* in stem leaf (SL), branch leaf (BL), flower bud (FB) and lateral bud (LB). **(A)** The expression levels of Class I *CaTCPs*, **(B)** subclass CYC/TB1 belonging to Class II, and **(C)** subclass CIN belonging to Class II. The value was mean of three replicates. SD was represented using error bar. Raw data were recorded in Table S8, $2^{-\Delta\Delta CT}$ method was used to calculate relative expression level.
