

## Supplementary Materials

Table S2: The Global Quality Score

<b>Global Quality Score</b>	
<b>1</b>	Poor quality; very unlikely to be of any use to patients
<b>2</b>	Poor quality but some information present; of very limited use to patients
<b>3</b>	Suboptimal flow, some information covered but important topics missing; somewhat useful to patients
<b>4</b>	Good quality and flow, most important topics covered; useful to patients
<b>5</b>	Excellent quality and flow; highly useful to patients
