

Supplementary Material

Figure S1. Prefrontal cortex based on the Sallet Atlas ([Sallet et al. 2013](#)).

Figure S2. Neuronavigated coordinates overlapping Brodmann areas 9/46D and 9/46V.

Figure S3. Flowchart.

Table S1. Demographic and baseline measures.

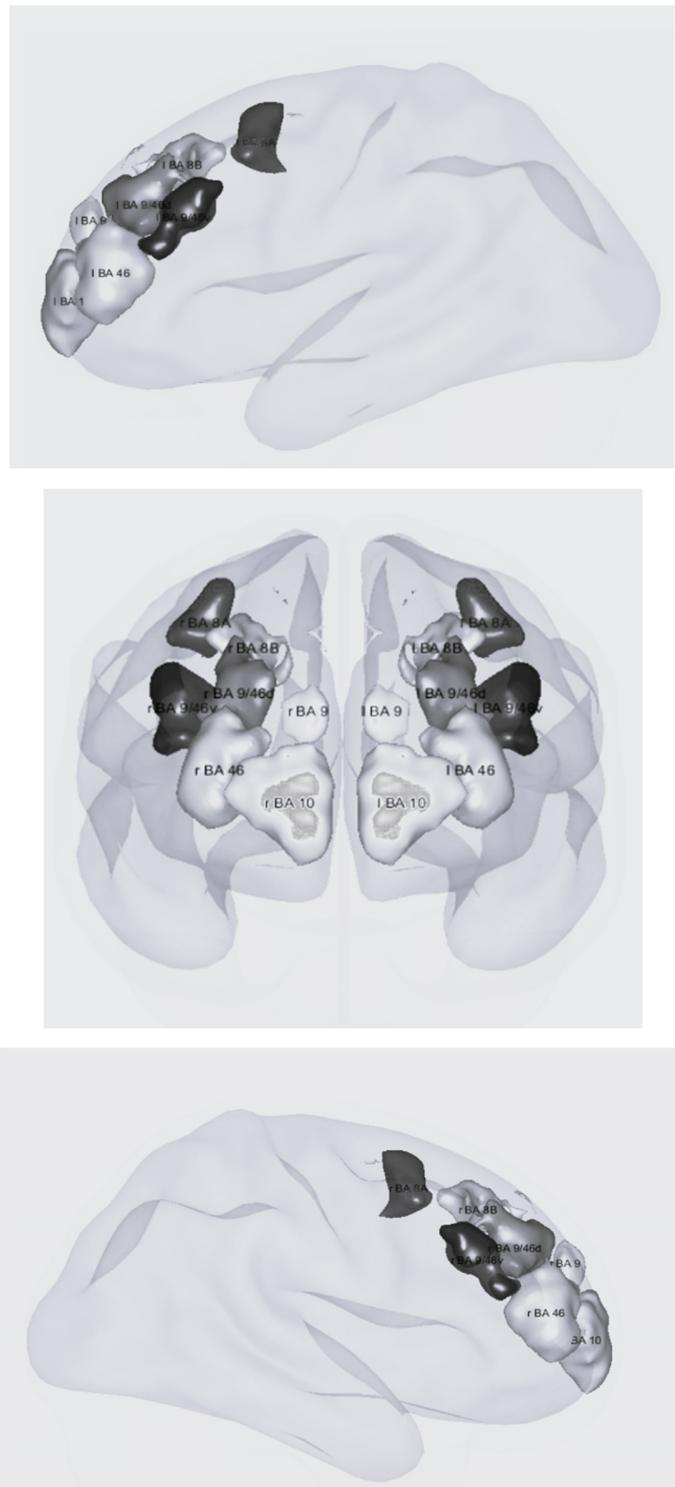

Figure S1. Prefrontal cortex based on the Sallet Atlas (Sallet et al. 2013). Seven dorsolateral prefrontal cortex sub-regions used in our analyses, corresponding to: brodmann area (BA) 9, BA 10, BA 9/46D and BA 9/46V, BA 46, BA 8A and BA 8B.

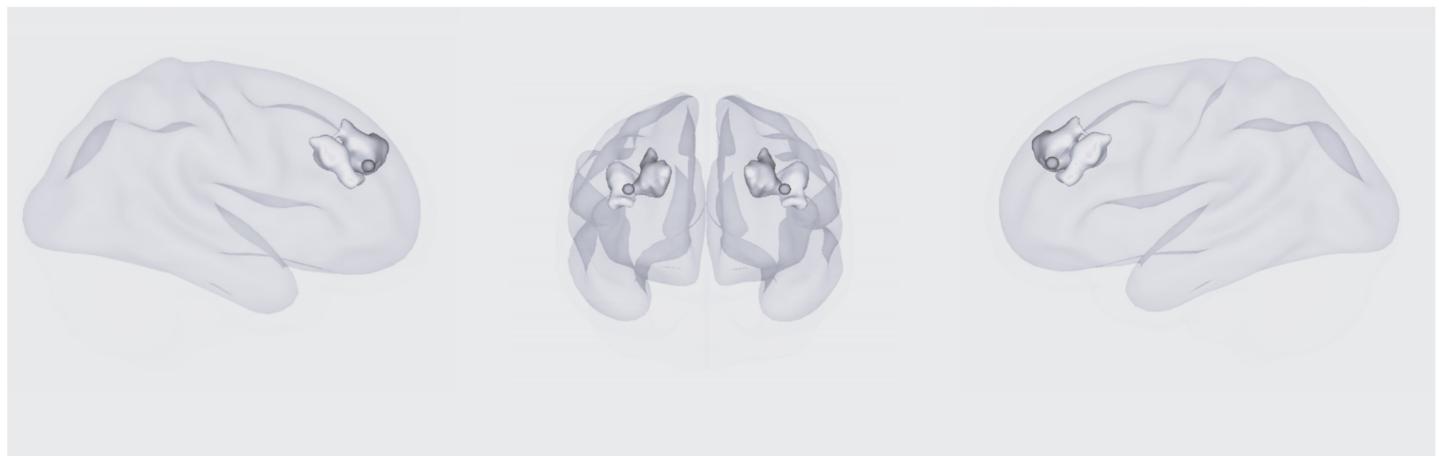

Figure S2. Neuronavigated coordinates overlapping Brodmann areas 9/46D and 9/46V.

Neuronavigated coordinates were based on the MNI152 stereotaxic atlas (coordinates, -38, +44, +26 and +38, +44, +26). Note: The circular areas correspond to the left and right MNI coordinates (targeted DLPFC), while the light gray corresponds to the BA 9/46V region and the dark gray corresponds to the BA 9/46D region.

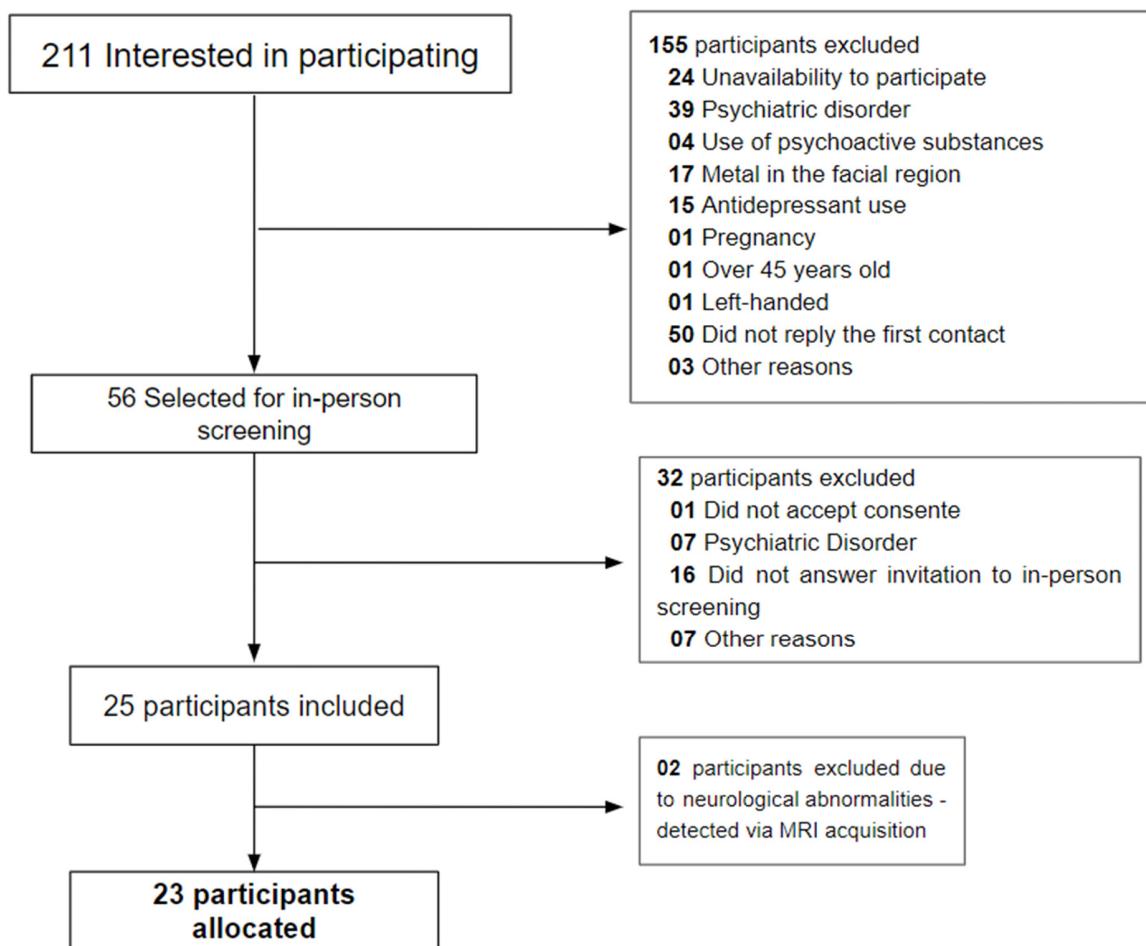

Figure S3. Flowchart.

Table S1. Demographic and baseline measures.
