Due to imprecise meaning in the original publication [1], the authors wish to correct the second paragraph, located on page 5 after the index matrix A^* and before Table 1. The proper sentence reads as follows:

If a user's chosen threshold values of α and β for comparison of $\mu_{Cp,Cq}$ and $\nu_{Cp,Cq}$ are in the interval $[0, 1]$, then the criteria C_p and C_q are as follows:

- in positive consonance if $\mu_{Cp,Cq} > \alpha$ and $\nu_{Cp,Cq} < \beta$;
- in negative consonance if $\mu_{Cp,Cq} < \beta$ and $\nu_{Cp,Cq} > \alpha$;
- in dissonance in other cases.

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
