

Diaphragm

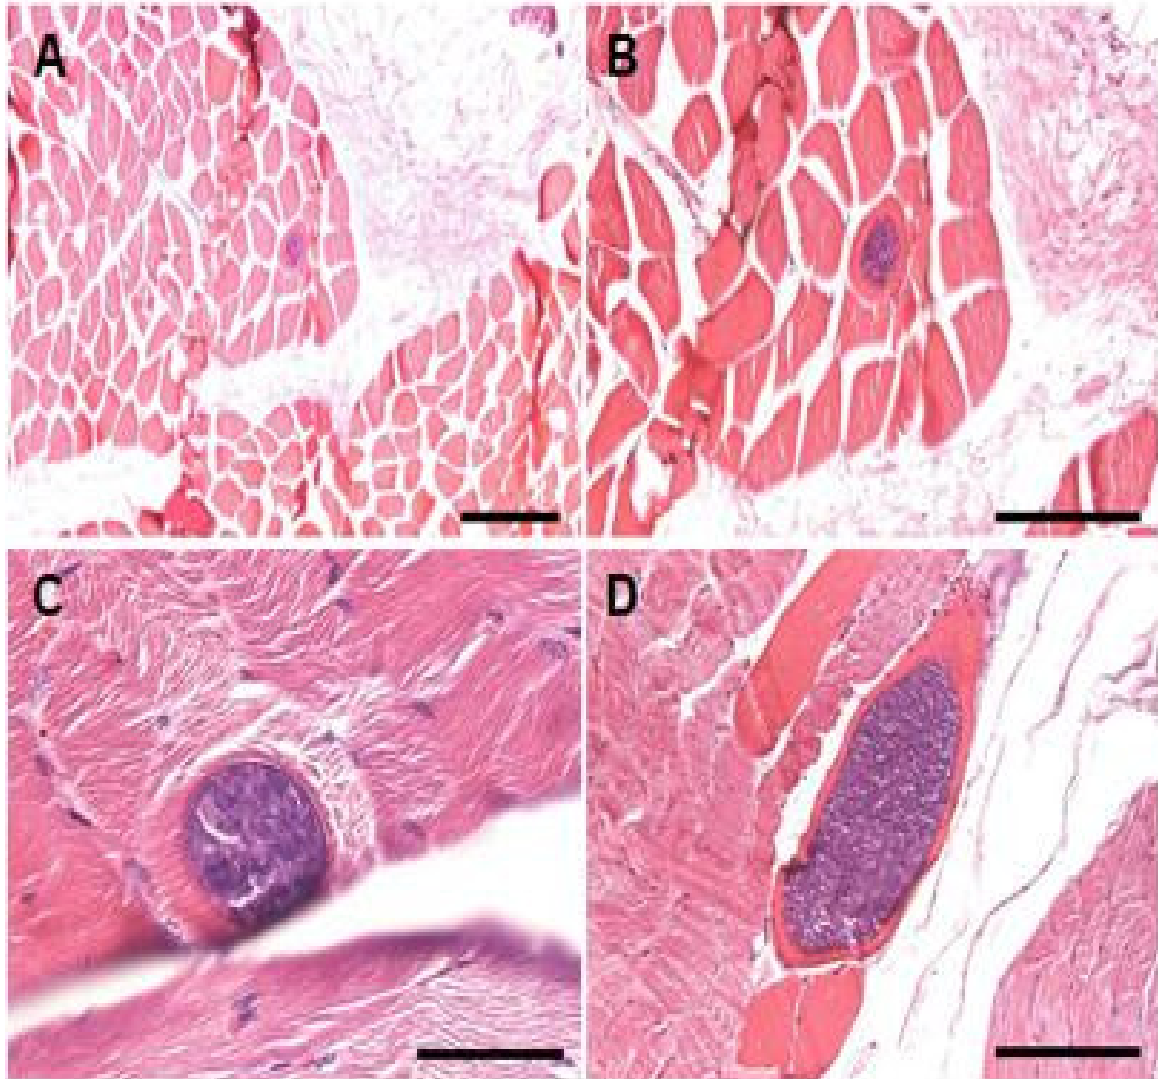

Figure S1. Photomicrograph of *Sarcocystis* in the diaphragm. Encysted parasites in the muscle fibers of the diaphragm without inflammatory cells infiltration (A-D). Hematoxylin and eosin stain. Bar A = 100 μ M. Bars B-D = 50 μ M.

Heart

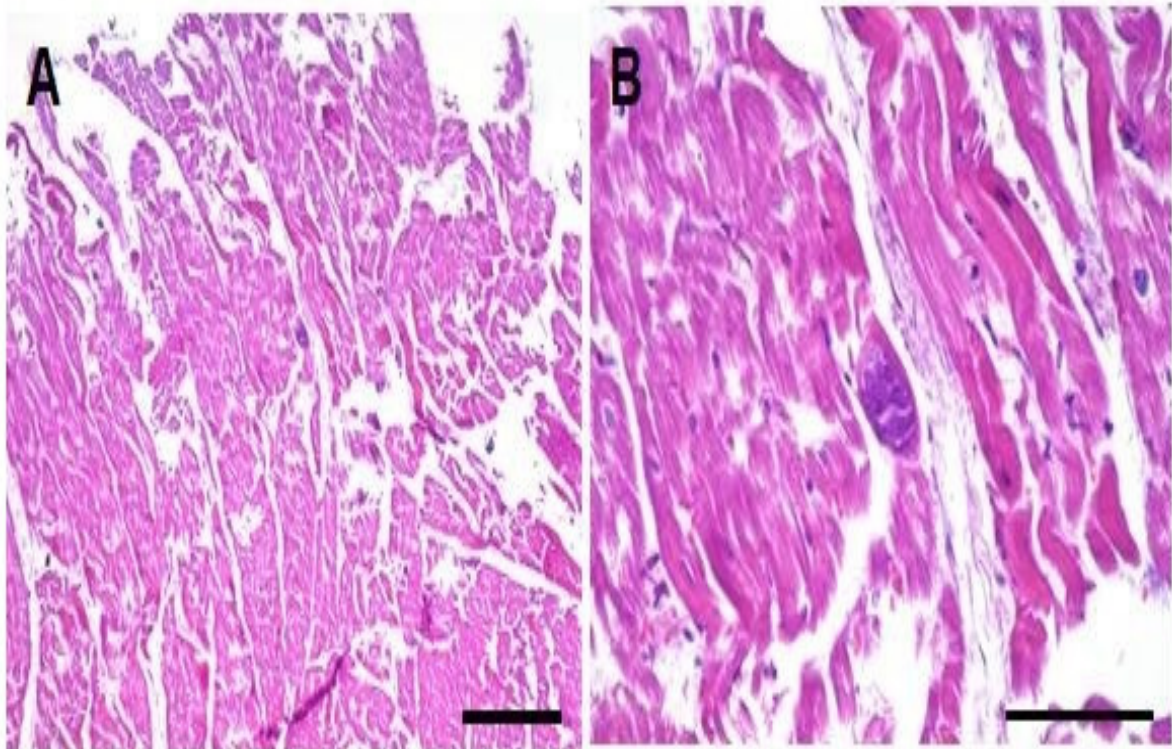

Figure S2. Photomicrograph of *Sarcocystis* in the heart. Encysted parasite in the muscle fibers of the heart without inflammatory cells infiltration (A and B). Hematoxylin and eosin stain. Bar A = 100 μ M. Bar B = 50 μ M.
