**Supplementary Figure S2. Whole-genome alignment between Sanger-sequenced *Fol*4287 (*Fol* 2010) and PacBio-sequenced *Fol*4287 (*Fol* 2020) genome assemblies.** The alignment shows the correspondence between chromosomes in *Fol* 2010 genome assembly and contigs in *Fol* 2020 genome assembly. Unique forward alignments are in blue, unique reverse alignments are in red and repetitive
