

Table S1. Response of tomato plants to pathogenicity of *Rhizoctonia solani* isolates recorded as disease index (DI%).

Isolates	Disease index \pm SD*
R1	41.49 \pm 2.26 d
R2	68.16 \pm 3.42 b
R3	74.80 \pm 3.73 b
R4	83.68 \pm 4.36 a
R5	54.26 \pm 1.49 c

*SD means standard deviation. Different letters alongside data values in each column mean the values differed significantly at p -value ≤ 0.05 .
