TABLE OF CONTENTS	PAGE
1. ¹ H NMR of probe: full spectrum	2
2. ¹ H NMR of probe: spectrum enlargements	2
3. ¹ H NMR of probe: aromatic proton region showing chemical shifts, coupling constants, the integration, in relative values, of the multiplets / singlet of the molecule of interest	3
4. ¹³ C NMR of probe: full spectrum	3
5. ¹³ C NMR of probe: spectrum region of carbon chemical shifts of the molecule of interest	3

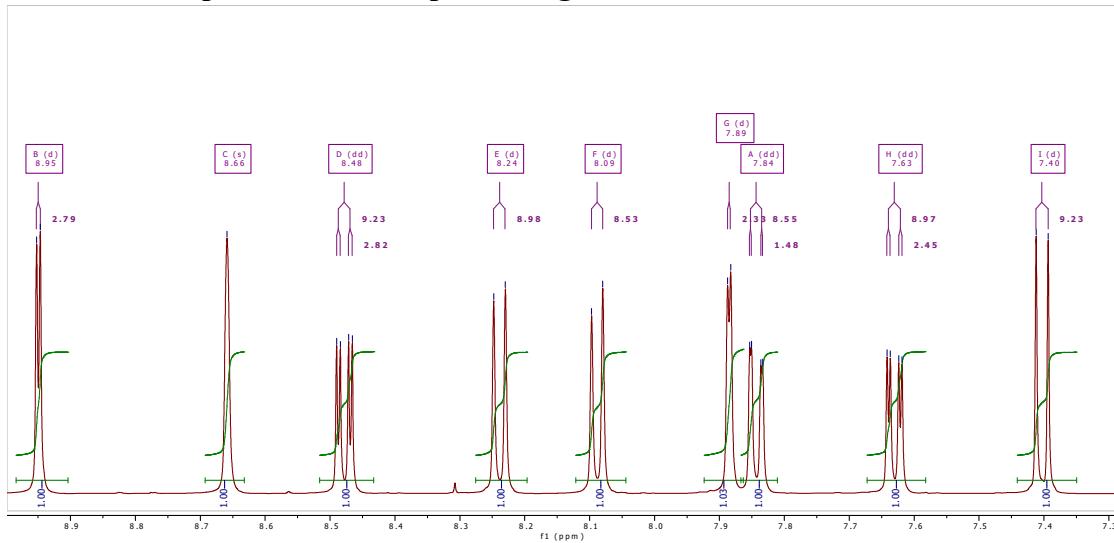

1. ^1H NMR of probe: full spectra

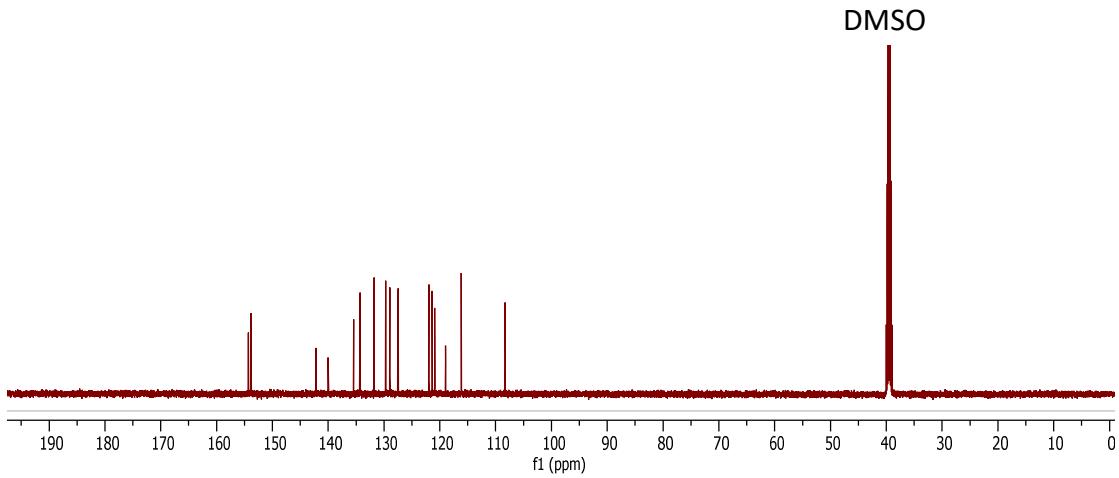

2. ^1H NMR of probe: spectra enlargements

3. ^1H NMR of probe: aromatic proton region

4. ^{13}C NMR of probe: full spectra

5. ^{13}C NMR of probe: spectrum region of carbon chemical shifts
